Left Neglected Lisa Genova

From Lisa Genova—whose novel *Still Alice* is soon to be a major motion picture starring Julianne Moore, Alec Baldwin, Kate Bosworth, and Kristen Stewart—comes this *New York Times* bestselling novel of resilience in the face of a devastating diagnosis. A vibrant mother in her thirties learns what matters most in life when a car crash leaves her with a traumatic brain disorder called "left neglect."

Sarah Nickerson is like any other career-driven supermom in Belmont, the affluent Boston suburb where she leads a hectic but charmed life with her husband Bob, faithful nanny, and three children—Lucy, Charlie, and nine-month-old Linus.

Between recruiting the best and brightest minds as the vice president of human resources at Berkley Consulting; shuttling the kids to soccer, day care, and piano lessons; convincing her son's teacher that he may not, in fact, have ADD; and making it home in time for dinner, it's a wonder this over-scheduled, over-achieving Harvard graduate has time to breathe.

A self-confessed balloon about to burst, Sarah miraculously manages every minute of her life like an air traffic controller. Until one fateful day, while driving to work and trying to make a phone call, she looks away from the road for one second too long. In the blink of an eye, all the rapidly moving parts of her jam-packed life come to a screeching halt.

A traumatic brain injury completely erases the left side of her world, and for once, Sarah relinquishes control to those around her, including her formerly absent mother. Without the ability to even floss her own teeth, she struggles to find answers about her past and her uncertain future.

Now, as she wills herself to regain her independence and heal, Sarah must learn that her real destiny—her new, true life—may in fact lie far from the world of conference calls and spreadsheets. And that a happiness and peace greater than all the success in the world is close within reach, if only she slows down long enough to notice.
