My Favorite Nature Book: Stars & Planets: Includes an Activity Kit with Posters, Stickers & Glow-in-the-Dark Stars Janet Borg

With this gorgeously illustrated book and activity set, kids can fly into outer space and take a guided tour of the sparkling night sky. It features so many appealing elements that make the astronomical journey special: a poster of the solar system, reusable planet stickers to place on the poster, a map of the constellations, and more than 100 glow-in-the-dark star stickers. And it's all nicely packaged in an envelope bound into the book's front cover. The trip begins with the sun, and then it's on to the moon and an exploration of its cycles. Move farther out to gaze upon the stars and map out the constellations. Finally, children return to Earth to gain an understanding of our own special place in the solar system.
