**Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series** Kuang-Hua Chang

*Product Design Modeling using CAD/CAE* is the third part of a four-part series. It is the first book to integrate discussion of computer design tools throughout the design process. Through this book, you will:

- Understand basic design principles and all digital design paradigms
- Understand computer-aided design, engineering, and manufacturing (CAD/CAE/CAM) tools available for various design-related tasks
- Understand how to put an integrated system together to conduct all-digital design (ADD)

  

- Provides a comprehensive and thorough coverage of essential elements for product modeling using the virtual engineering paradigm
- Covers CAD/CAE in product design, including solid modeling, mechanical assembly, parameterization, product data management, and data exchange in CAD
- Case studies and tutorial examples at the end of each chapter provide hands-on practice in implementing off-the-shelf computer design tools
- Provides two projects showing the use of Pro/ENGINEER and SolidWorks to implement concepts discussed in the book

### **From reader reviews:**

#### **Lucia Morrone:**

The book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series can give more knowledge and information about everything you want. Why then must we leave a good thing like a book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series? Wide variety you have a different opinion about publication. But one aim this book can give many info for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or details that you take for that, you may give for each other; you may share all of these. Book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series has simple shape however you know: it has great and big function for you. You can look the enormous world by open up and read a e-book. So it is very wonderful.

#### **Mike Greene:**

Are you kind of active person, only have 10 as well as 15 minute in your morning to upgrading your mind proficiency or thinking skill even analytical thinking? Then you are having problem with the book as compared to can satisfy your limited time to read it because this time you only find guide that need more time to be learn. Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series can be your answer mainly because it can be read by you actually who have those short time problems.

#### **Henry Reavis:**

Is it you actually who having spare time and then spend it whole day by simply watching television programs or just resting on the bed? Do you need something totally new? This Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series can be the solution, oh how comes? It's a book you know. You are thus out of date, spending your free time by reading in this brand-new era is common not a geek activity. So what these books have than the others?

#### **Ann Wheeler:**

Reserve is one of source of information. We can add our know-how from it. Not only for students and also native or citizen want book to know the upgrade information of year in order to year. As we know those publications have many advantages. Beside we add our knowledge, can bring us to around the world. Through the book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series we can consider more advantage. Don't that you be creative people? Being creative person must want to read a book. Simply choose the best book that suitable with your aim. Don't end up being doubt to change your life with that book Product Design Modeling using CAD/CAE: The Computer Aided Engineering Design Series. You can more appealing than now.
