The Pact Robert Patrick Lewis

The Pact is the second book by former Green Beret-turned author Robert Patrick Lewis and his first foray into the world of fiction. The Pact is the first of a 3-book series, a fictional story based on current events, the author's experience in Special Forces and first-hand knowledge of geopolitics and global intelligence. It combines global politics, combat, economics, conspiracy theories and Special Forces history into one nail-biting work. Already hailed as "so realistic and plausible that it's terrifying," "an on-the-edge-of-your-seat thriller that will have you looking in your rearview mirror for enemy troops" and "the next great franchise in the world of military fiction," The Pact is going to change the way Americans look at their government and safety for the rest of their lives.
