Eva Hesse Lucy R. Lippard

As Lippard points out, Hesse's use of obsessive repetition in her works served to increase and exaggerate the absurdity she saw in her life. In many ways, her works were "psychic models," as Robert Smithson has said, of "a very interior person." In pioneering the use of "soft" materials, her sculptures betrayed her awareness of the manner in which her experience as a woman altered her art and career. Although she died before feminism affected the art world to any great extent, her major works have since become talismans for succeeding generations of women artists. *Eva Hesse* was designed by Hesse's friends and colleagues Sol LeWitt and Pat Stier; her sculptures, drawings, and paintings are reproduced and discussed; and the text includes numerous quotations from her diaries. First published in 1976 but long out-of-print, this classic text is both an insightful critical analysis and a tribute to an artist whose genius has become increasingly apparent with the passage of time.
