Heidegger: A Very Short Introduction (Very Short Introductions) Michael Inwood

Martin Heidegger (1889-1976) is probably the most divisive philosopher of the twentieth century.

Considered by some to be the greatest charlatan ever to claim the title of philosopher, by some as an apologist for Nazism, he was also an acknowledged leader and central figure to many philosophers. Michael Inwoods lucid introduction to Heideggers thought focuses on his most important work, *Being and Time*, and its major themes of existence in the world, inauthenticity, guilt, destiny, truth, and the nature of time. These themes are then reassessed in the light of Heideggers later work, together with the extent of his philosophical importance and influence. This is an invaluable guide to the complex and voluminous thought of a major twentieth-century existentialist philosopher.
