MasteringChemistry with Pearson eText -- Standalone Access Card -- for General, Organic, and Biological Chemistry (2nd Edition) Laura D. Frost, S. Todd Deal

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

This is the standalone access card for MasteringChemistry providing access to the resources of MasteringChemistry® in addition to Pearson eText content.

MasteringChemistry

The Mastering platform is the most effective and widely used online homework, tutorial, and assessment system for the sciences. It delivers self-paced tutorials that focus on your course objectives, provide individualized coaching, and respond to each student's progress. The Mastering system helps instructors maximize class time with easy-to-assign, customizable, and automatically graded assessments that motivate students to learn outside of class and arrive prepared for lecture or lab.

NEW! MasteringChemistry content reinforces the text's approach with the following new assets:

- **Integrated Tutorials** reinforce connections between general chemistry, organic chemistry, and biochemistry principles while helping students develop their problem-solving skills.
- **Pause and Predict Video Quizzes** bring chemistry to life with lab demonstrations illustrating key topics in general, organic, and biological chemistry. Students are asked to predict the outcome of experiments as they watch the videos; a set of multiple-choice questions challenges students to apply the concepts from the video to related scenarios. Videos are also provided in the study area for browser and mobile viewing.
