The Galaxy is Filled with Humans... They Know More about Our Past than We Do...

Some will Fight for Us; Some will try to Destroy Us... Earthers are Special; But do we Really Want our Destiny?

Mark and Julie are brilliant scientists and Major Reagan has kept them and others alive to this point, but the most dangerous confrontations will not be with the Noridians, it will be with the Lower Houses of The Accord.

Destiny is a thought-provoking journey that will cause you to inspect your basic values. From what it really means to be human to wondering if there's room in the universe for God.

It's also a fun read.
