--President Jimmy Carter

Nick Pope, former member of the British Ministry of Defence, covers the latest UFO documents released by the UK's National Archives, including such fascinating information as: what Churchill knew, why the documents are being released now, what's in them, and what's still being withheld.

Donald R. Schmitt, the former co-director of the J. Allen Hynek Center for UFO Studies, takes on the aftermath of the Roswell incident, discussing in detail the initial stages of the government's cover-up attempts.

Air Force veteran Thomas J. Carey chronicles the military's attempts to intimidate people into not telling their stories about what they have seen with their own eyes.

The niece of Betty and Barney Hill, Kathleen Marden, gives a short history of cases of alien abduction, many which continue to baffle the American public and UFO investigators alike.

Nick Redfern provides a fresh take on the famous 1953 UFO crash in Kingman, Arizona, and explores its possible connection to a government program to reverse-engineer alien spacecraft.

Ufologist-author John White is a long-time ufologist who gives an overview of the UFO experience.

He looks at all evidence bearing on the question "What are UFOs?" and concludes there is no single answer to the question. Rather, there are three answers: terrestrial, extraterrestrial and metaterrestrial.

Something is out there, and *Exposed, Uncovered, and Declassified: UFOs & Aliens* will help us find out exactly what--or who--it is.
