Manufacturing Processes: Materials, Productivity, and Lean Strategies

J. Barry Duvall, David R. Hillis

Manufacturing Processes: Materials, Productivity, and Lean Strategies J. Barry Duvall, David R. Hillis **Manufacturing Processes** provides an excellent introduction to today's manufacturing processes, as well as an overview of automated manufacturing systems. The text concentrates on the five major types of industrial materials: metals, plastics, ceramics, woods, and composites. It provides thorough coverage of the forming, separating, fabricating, conditioning, and finishing processes related to each material. The text includes a chapter covering the materials and manufacturing processes used in packaging finished goods.
