Follow these 10 easy steps to goldfish keeping and your fish will thrive in the ecosystem you create. The tiny goldfish you bring home will double in size within a few short weeks, and by the end of the first year could easily measure 2" in length, averaging 1" per year. If their growth is not stunted by close quarters they'll keep growing for most of their life which averages 16 years. Although we've been led to believe that goldfish can be kept in small bowls, this simply isn't true. Goldfish need room to grow. The water they live in should be filtered and oxygenated.
