## An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) Lily Elefteriadou

This text provides a comprehensive and concise treatment of the topic of traffic flow theory and includes several topics relevant to today's highway transportation system. It provides the fundamental principles of traffic flow theory as well as applications of those principles for evaluating specific types of facilities (freeways, intersections, etc.). Newer concepts of Intelligent transportation systems (ITS) and their potential impact on traffic flow are discussed. State-of-the-art in traffic flow research and microscopic traffic analysis and traffic simulation have significantly advanced and are also discussed in this text. Real world examples and useful problem sets complement each chapter.

This textbook is meant for use in advanced undergraduate/graduate level courses in traffic flow theory with prerequisites including two semesters of calculus, statistics, and an introductory course in transportation. The text would also be of interest to transportation professionals as a refresher in traffic flow theory, or as a reference. Students and engineers of diverse backgrounds will find this text accessible and applicable to today's traffic issues.

### **From reader reviews:**

#### **Marilyn Daniels:**

This An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) are reliable for you who want to be considered a successful person, why. The reason of this An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) can be on the list of great books you must have will be giving you more than just simple looking at food but feed anyone with information that perhaps will shock your before knowledge. This book is handy, you can bring it everywhere you go and whenever your conditions in e-book and printed types. Beside that this An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) forcing you to have an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that could it useful in your day exercise. So , let's have it and luxuriate in reading.

#### **Malcolm Khan:**

In this time globalization it is important to someone to obtain information. The information will make you to definitely understand the condition of the world. The condition of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, newspapers, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. The actual book that recommended to you is An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) this book consist a lot of the information in the condition of this world now. This particular book was represented just how can the world has grown up. The language styles that writer use for explain it is easy to understand. The writer made some investigation when he makes this book. Here is why this book suited all of you.

#### **Frederica Dawkins:**

This An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) is new way for you who has fascination to look for some information because it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know or else you who still having tiny amount of digest in reading this An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications) can be the light food for yourself because the information inside this kind of book is easy to get through anyone. These books build itself in the form that is reachable by anyone, yeah I mean in the e-book web form. People who think that in reserve form make them feel drowsy even dizzy this book is the answer. So there is absolutely no in reading a reserve especially this one. You can find actually looking for. It should be here for you actually. So , don't miss it! Just read this e-book sort for your better life and also knowledge.

#### **Salvatore Anthony:**

With this era which is the greater man or who has ability to do something more are more special than other. Do you want to become one among it? It is just simple approach to have that. What you are related is just

spending your time very little but quite enough to experience a look at some books. One of many books in the top list in your reading list is definitely An Introduction to Traffic Flow Theory (Springer Optimization and Its Applications). This book which is qualified as The Hungry Mountains can get you closer in growing to be precious person. By looking upwards and review this reserve you can get many advantages.
